## Profile Summary

Full Stack Developer skilled in building responsive web applications using React.js, Node.js, Express.js, MongoDB, REST APIs, authentication, and deployment workflows. Strong understanding of frontend design, backend integration, database operations, and problem-solving with Data Structures and Algorithms.

## Skills

- Languages:** C++, Python, MERN Stack
- Core Skills:** Full Stack Development, Data Structures & Data Science

## Projects

Project Management System | MERN Stack, React.js, Node.js, MongoDB

2026

- Developed a full-stack project management web application for efficient task and team collaboration.
- Implemented authentication, task assignment, project tracking, and workflow management functionalities.
- Designed responsive dashboards with dynamic project tracking and real-time UI updates.
- Integrated REST APIs and MongoDB operations for secure and scalable data handling.
- Live Project: [project-management-iota-three.vercel.app](#)

Growth Vibe Agency Website | Vite, JavaScript, HTML, CSS

2026

- Developed a responsive multi-page digital marketing agency website using Vite, JavaScript, HTML, and CSS.
- Built service pages, case studies, portfolio sections, and contact page.
- Implemented structured navigation for smooth user experience.
- Integrated SMTP functionality to send email notifications from the website contact form.
